Joan, Scott may have left for the day, and I would also like Cheryl and Kelly to also think about this part of the response..

Deliberative Process / Ex. 5

Thanks.

Joan – We received the levels from PADEP, as I recall.

Thanks.

Here you are Joan. The reporter has a copy of the NON, which identifies the PCB concentration in soils that Coplay Aggregates is using as construction fill dirt at their site in Whitehall, PA. Let me know if you need additional information. regards

Ok, so these answers were for everyone's review and comment. If they are OK, I believe I have included everyone in the e-mail thread, with the exception of Terri. I'm not sure who that is so can someone else please forward. If there is any editing or additional information is needed, let me know and I will fix it up and resend. Best regards

Mike and Stacie?

Looks like this is an LCD question—the reporters deadline is tomorrow.

Here are her questions, I'll copy below the entire email: Questions are about: Coplay Aggregates and they're located at 5101 Beekmantown Road in Whitehall, PA. The docket number on the violation was listed as 03-18-0028.

1. Did Coplay Aggregates receive violations and what, if anything, the property owners have done to remediate the problem?
2. Does the PCB recorded level of 6.75ppm pose any risk for those residents living near the site?

My name is Sarah Wojcik and I'm a reporter for the Morning Call in Allentown, Pa. I am working on a story about an EPA violation at a quarry reclamation project in Whitehall, PA. The property is called Coplay Aggregates and they're located at 5101 Beekmantown Road in Whitehall, PA. The docket number on the violation was listed as 03-18-0028.

I was hoping to confirm whether Coplay Aggregates received the violation and what, if anything, the property owners have done to remediate the problem.

Neighbors to the site have complained for years about airborne debris blanketing their property. I was also hoping to learn more about PCBs and whether this level recorded (6.75ppm) poses any risk for those residents living near the site.

I am working on a deadline for tomorrow's paper, so if you could get back to me this afternoon, I'd be most appreciative. I can be reached at 610-778-2283<image001.png> or on my personal cell at 724-513-2611<image001.png>.

Hi Gail,

This looks like an air question, although it's somewhat unclear. Can you let me know if APD took an enforcement action at this facility.

Thanks,

David

Can one of you follow up on this and work on this? Sounds familiar – David, did we hear about this before about the air issues?
Please advise –thanks.
